

Where vision meets home

10 STUDIO

Design & build portfolio | Design services

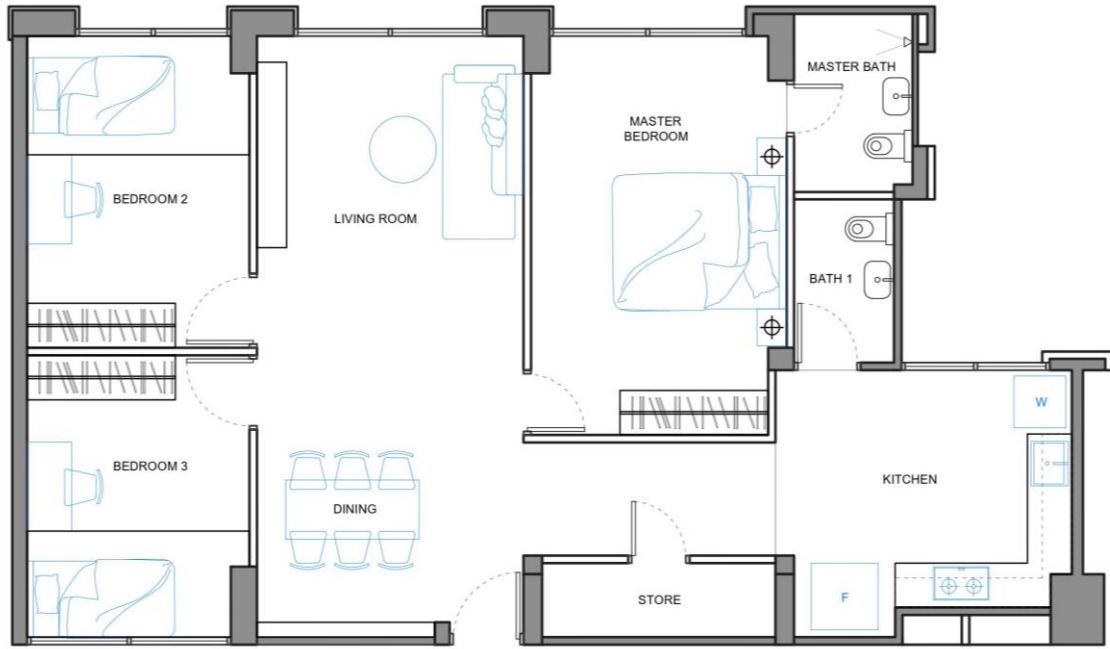

Phase 1

INITIAL DESIGN PRESENTATION

Initial presentation to see if you as the client would like to engage in our services. This presentation is simply for us to get to know each other better and see if we are the right fit as a designer for you 😊

What's included?

1. Professionally done layout plan with accurate dimensions (Autocad)

2. Mood images replicating the style and feel of different spaces and design proposals

What's included?

Alongside the layout plan and mood images, we will also present a realistic 360° render of **1 space (our choice)** in your home.

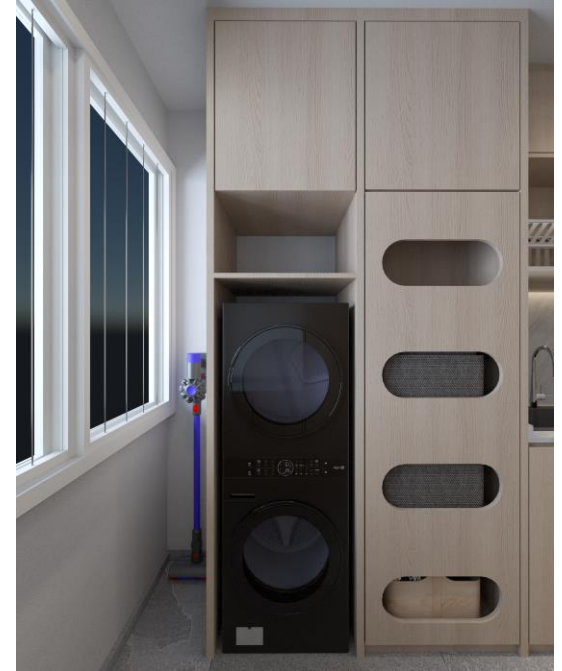

Phase 2

SCHEMATIC DESIGN PRESENTATION

If you as a client decide to go ahead and sign with us, we will move on to phase 2 of schematic design. In this presentation we will be providing clients with renders of spaces where work will be done.

Examples from **different** projects

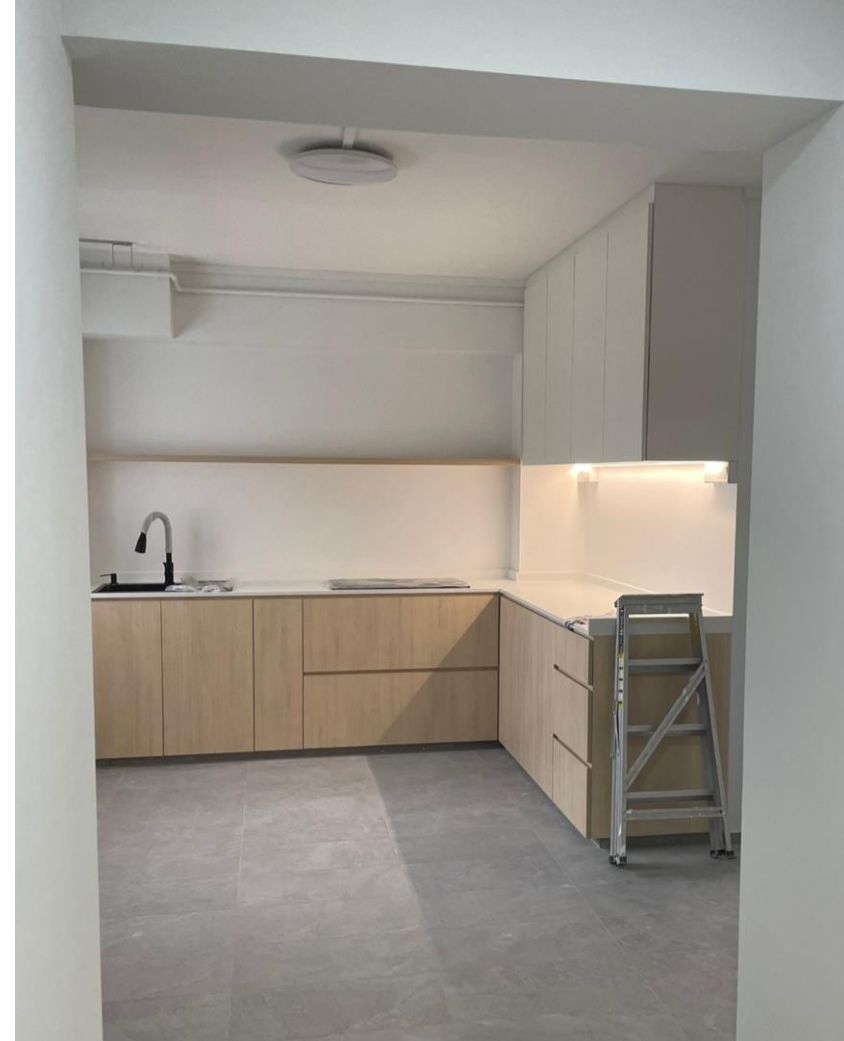

Render:

As Built:

We try to be as accurate as possible when it comes to renders so that our homeowners can visualize their space better

Render:

As Built:

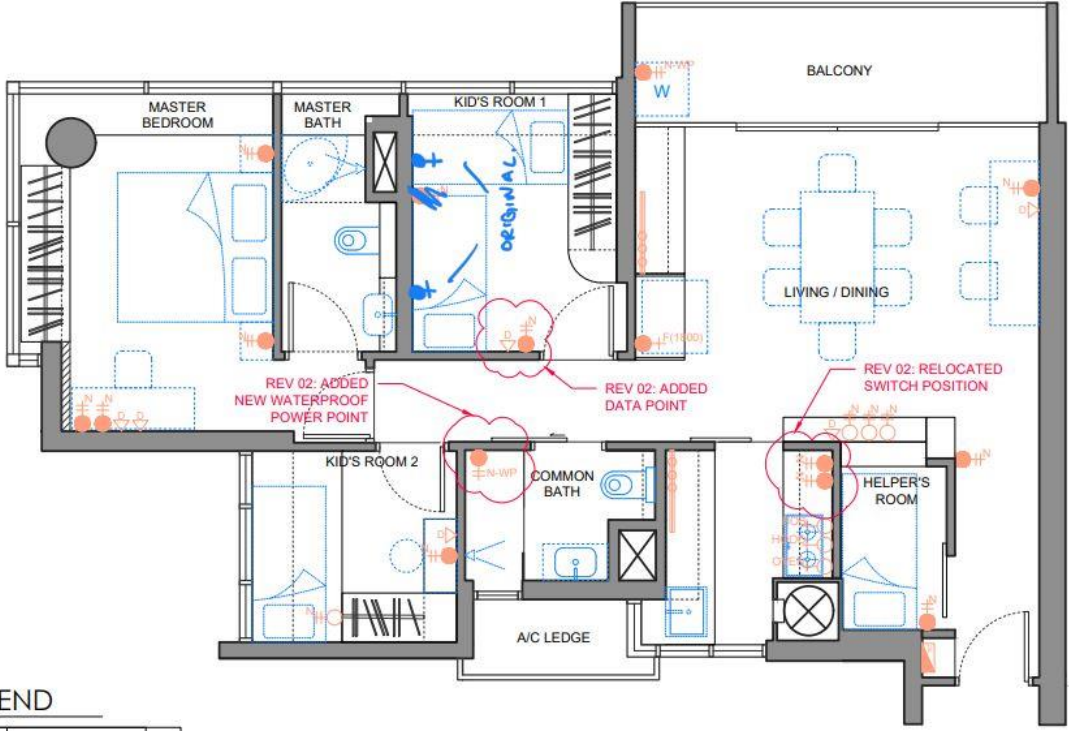

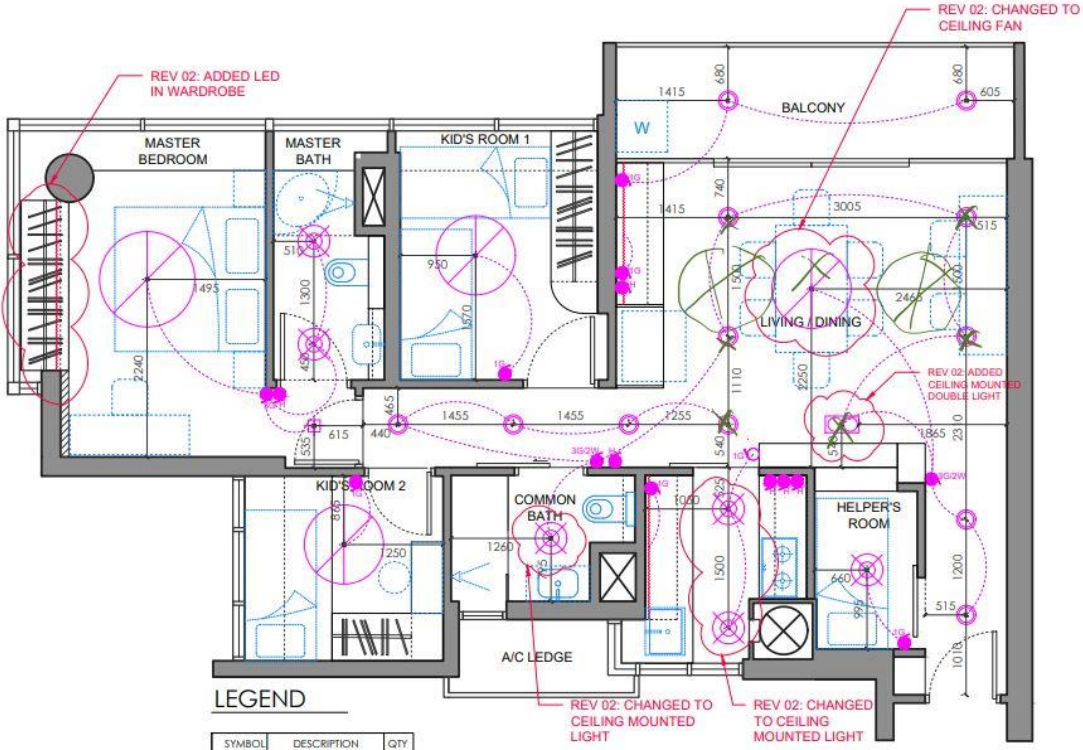

Phase 3

TECHNICAL DRAWINGS

After you have roughly confirmed the design, we will start working on the technical drawings. This includes hacking, partition, electrical, lighting etc.

Examples of technical drawings:

Phase 4

JOINERY DRAWINGS

This is the last phase of drawings that will be done when works are going on. We will provide a full professional set of joinery drawings to make sure that we capture all your needs and requirements in terms of measurements and materials.

Thank you!

Thank you for contacting us and giving us a chance to make
your dream home a reality!
